

EVOLUTION OF THE MOTORISED SLIMLINE

MOTORISED SLIMLINE 2017-2019 (Horizontal Motor Version)

1. Product paint finish is Aluminium White (RAL 9006)

Fixing footprint, lock body size, and cable outlet position – Drawing reference 14652.03.000

8mm spindle/shaft

In-house cycle testing to over 4 million cycles

MOTORISED SLIMLINE 2019 – 2020 (Interim Motor Version)

1. Introduced new brushless motor that was faster and quieter

Fixing footprint, lock body size, and cable outlet position - Drawing reference 14652.03.000

MOTORISED SLIMLINE 2020 – 2023 (Vertical Motor Version)

1. Moved to stainless steel and orientated motor to vertical position
2. Plates, guides, and lock bodies changed from Mild Steel Painted Aluminium White (RAL 9006) to Satin Stainless steel finish. Aluminium White (RAL 9006) paint finish available using ordering code J13 (new ordering code system)
3. Power supply unit enclosures changed from plastic to steel
4. Monitoring output of bolt and deadlock status provided via relay box installed within PSU

Fixing footprint, lock body size, and cable outlet position - Drawing reference 14652.03.000

MOTORISED SLIMLINE JUNE 2023

1. Power supply updated from 14802.06.000 to 14802.08.000, 04703.00.000 5 m hardwired cable changed to 13279.00.000 plug/cable assembly, and changed to 14802.10.000 3.2A power supply with external reset switch
2. Introduced new PCB switches for monitoring motor positions (effective as of December 2024)
