

The Foyle is a high-performance single-point latch that releases an additional bolting point when rapid lockdown mode is activated. The single-point latch continuously secures the door during day-to-day use, complete with access control and single-handed egress.

Pushing the red button activates the rapid lockdown mode, which ensures both bolts are thrown if the door is closed, or primed for when the door next reaches its closed position. A built-in two-part indicator displays green when the lock is in latch mode with controlled entry and red when the door is in lockdown mode. Lockdown mode will also deactivate the access control to prevent compromised entry and ensure the safety of the personnel inside the room.

Manufactured in Grade 316 stainless steel for hostile environments and durability, the Foyle also meets a wide range of international accreditations.

FOYLE

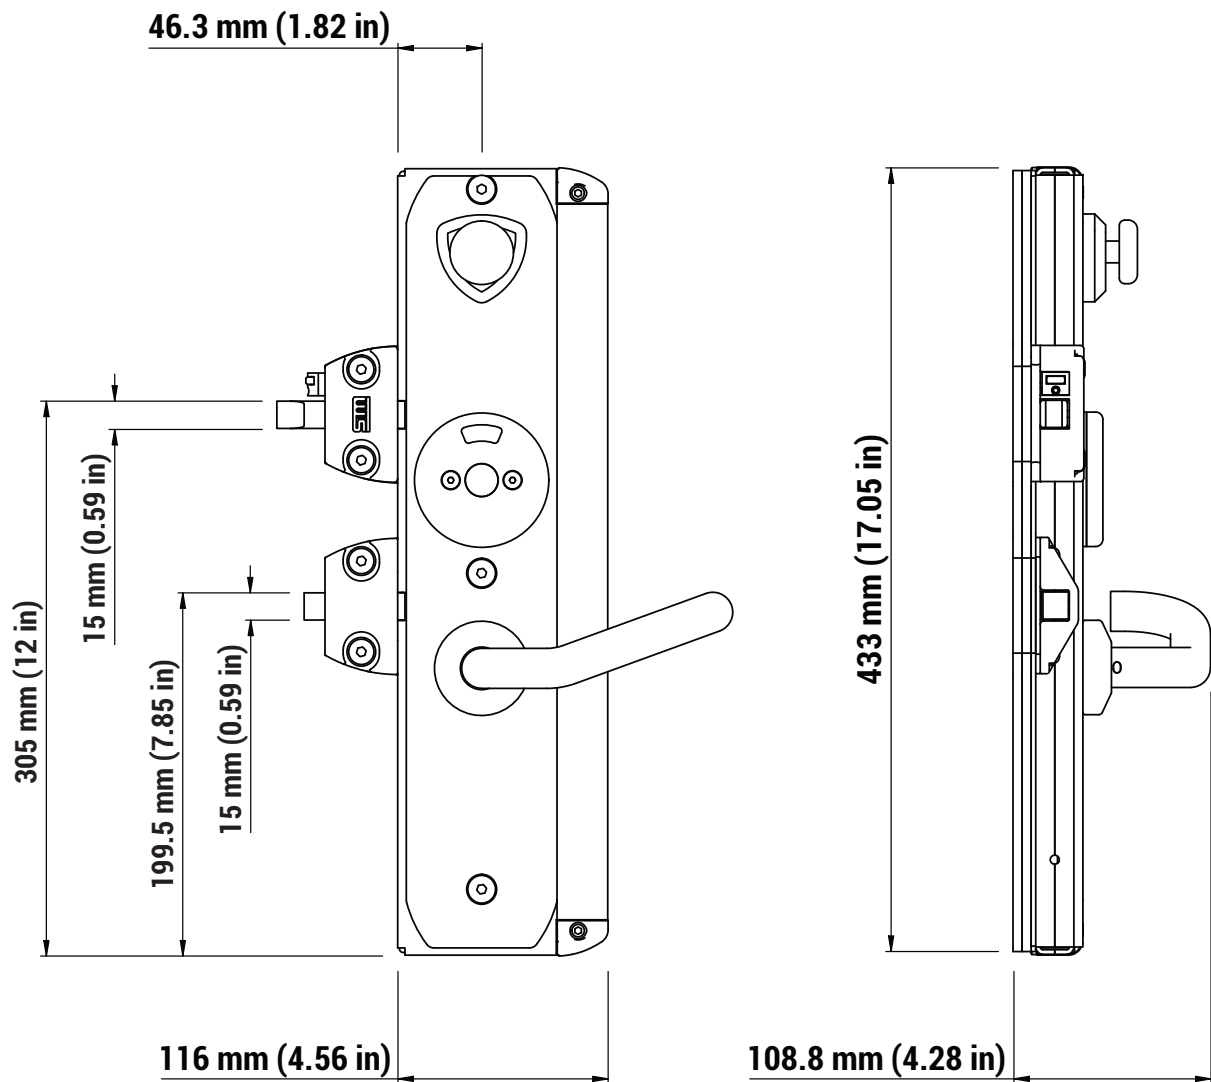

FEATURES

- Automatic securing upon door closure via latch
- Red push button activates rapid lockdown which ensures both bolts are thrown and signals to access control system to deactivate external readers
- Based on proven Slimline design to meet performance requirements
- 15 mm (5/8") square lockdown bolt with 25 mm (1") throw
- Grade 316 stainless steel construction for hostile environments and durability
- Built-in bolt and deadlocking status monitoring
- Emergency exit available at all times
- Engineered for longevity and trouble-free service
- Cylinder guard protection available from our tested and accredited range
- Infinite 'iRestraint' restrains bolts throughout their opening travel
- 12V DC fail secure

OPTIONAL ENHANCEMENTS

- 24V DC fail secure (standard for US or Canada)
- 12V DC or 24V DC fail safe
- In case of power failure or compromised access control, access can still be granted via key override (if requested)

ORDERING CODES

The Foyle has a structured ordering code that covers the chosen methods of entry, securing and exit methods

EXAMPLE ORDER CODE: F01A-AMLS-AA-LMLE

PRODUCT		ENTRY		SECURING		EXIT	
RANGE	BOLTS	UNLOCKING		UPON DOOR CLOSURE		UNLOCKING	
FO	Foyle	1	A Access control	AA	Auto bolting / Auto deadlocking	L	Single Handed / Panic - Emergency
BOLT DIRECTION		BOLT RETRACTION				BOLT RETRACTION	
A	Horizontal bolt & Latch	M	Manual			M	Manual
		OPERATOR				OPERATOR	
		LS	Lever handle (Tubular straight)			LE	Lever handle (Tubular ergonomic)
		US	Profile handle (Straight)			UE	Profile handle (Ergonomic)
